

# Marine Adapter

30 Amp Twist-Lock® to 15 Amp Straight Blade  
- with GFCI Protection

# HUBBELL

HBL105GF

### Other Ground Fault Products Available

Hubbell now offers a marine adapter that can provide 15 Amp convenience power with Ground Fault Protection from your 30 Amp locking shore power receptacle on shore. Now you can plug your power drill, sander or any other 15 Amp tool or appliance into that 30 Amp outlet on the dock - and be GFCI protected while doing so.

This portable GFCI adapter will protect people from the hazards of line-to-ground electrical current leakage that can occur in electrical appliances and tools, especially when used in a wet or damp location such as a marina, boat yard, construction site, etc. If a ground fault occurs and the leakage exceeds 4-6 milliamperes, the unit will quickly interrupt the power supply and limit the duration of the shock.

\*See back side for ordering information on the 30 Amp Adapter and other popular Hubbell Ground Fault Devices.

### Features

- Provides 15 Amp convenience power with GFCI protection
- Manual reset button
- High impact PVC housing, UV stabilized
- Sealed GFCI housing and keypad
- Large LED power "on" light

### Benefits

- Allows access to the dock-side 30 Amp locking outlet while being ground-fault protected.
- Prevents unintentional restart of equipment after loss of primary power.
- Resistant to abuse, sunlight, and chemicals providing superior performance and longer life.
- Meets Watertight requirements. Moisture and dust resistant for greater reliability and longer life in harsh environments.
- Provides positive verification of power status.
